(Reader's Service to the China Mail.)

PARIS, CONFERENCE.

NEW REPARATIONS SYSTEM LARGELY CAMOUFLAGE.

NEWSPAPER CORRESPONDENT'S VIEWS.

LONDON, February 1.

The generally optimistic attitude of the British press with reference to the agreement reached by the Allies with regard to reparations is not shared by the *Westminster Gazette* whose Paris correspondent says that Mr. Lloyd George was stung to plain speaking by the sentimental French view. The correspondent asserts as a result of his private conversations with British official personages that they know the sum obtainable to be relatively low. The correspondent expresses the opinion that the system now proposed is largely camouflage and in a few years when Germany will probably be behind in payments and the Allies alarmed at the inflow of German goods a very different compromise will be proposed. He says as regards the export tax that it will prove impossible to control German exports through neutrals or to America.

FINANCIAL EFFECTS.

LONDON, February 1.

City financiers point out that foreign exchanges and stock markets have not reacted as favourably as was expected upon the Allied agreement as regards German reparations. There is a certain amount of scepticism whether the terms are to be enforced and fears that Germany will pour out millions of fresh notes in order further to depreciate the mark. There was another twenty mark rise yesterday making 241 to the pound sterling.

WHAT REFUSAL WILL MEAN.

A *Havas* message states: M. Briand as President of the Conference sent the head of the German delegation a letter stating the conference decisions regarding disarmament. The letter says that the Allies, while granting Germany new delays, hope she realizes the serious consequences a refusal to carry out her obligations would entail.

FRENCH PRESS SATISFIED.

A *Havas* message states: The conference results appear on the whole highly satisfactory to the French Press which is especially pleased with the frustration of German endeavours to divide the Allies. The *Estimate Cordiale* is stronger than ever.

FUEL OIL PRICES

PRODUCERS DELIBERATELY EXPLOITING CONSUMERS.

OIL TRUSTS ATTACKED.

The Board of Trade's second report attacks the oil trusts. That the present costs of production of fuel oil does not justify the present prices, and that the producers are exploiting the consumers owing to a large demand, is the committee's verdict, which adds that there is no possible justification for the recent increase of seven pence a gallon in the price of petrol. The committee, while saying that it dislikes Government control, declares that there are only two ways of overcoming the difficulties. The first is combined action through the economic section of the League of Nations, and the second is the production of substitutes and the adoption of alternative sources of power to an extent that will lower prices. The soundest policy is to make the fullest use of coal and its products.

DEATH SENTENCE APPEAL.

CIVIL COURT REJECTS CORK MAN'S APPLICATION.

LONDON, February 1.

In connection with the appeal of a Cork man named Murphy in the King's Bench Division, Dublin, the Chief Justice delivered a unanimous judgment declaring that the Court had had no power to give a further stay of execution, but expressing the opinion that the prisoner should be given opportunity for making any further application in accordance with the Army Act.

[A London cable dated January 17 stated:—The High Court is hearing an appeal by a Cork man named Murphy against a court martial death sentence for participation in an ambush. Leave to appeal was granted by the Chief Justice after a strong agitation on behalf of Murphy whose innocence is asserted. The execution was postponed for the third time until February 2.]

SPORTING CLUB BOXING.

SCOTLAND RETAINS BANTAM-WEIGHT CHAMPIONSHIP.

LONDON, February 1.

In the National Sporting Club 20-rounds bantam-weight championship Jim Higgins (Scotland), the holder, beat Kid Symonds, (Plymouth), on points.

REPORTED MUTINY OF WRANGEL'S TROOPS DENIED.

LONDON, February 1.

Enter learns authoritatively that the report of a mutiny of General Wrangel's troops cabled on January 18 was without foundation. There was disorder on January 12 but it was immediately stopped without bloodshed.

BIG TRADING ENTERPRISE

LONDON, February 1.

Subscriptions for the recent issue of the Amalgamated Trading and Industrial Corporation are being returned with 10 per cent. interest.

RUGBY DEBS.

SENTENCE NOT TO BE COMMUTED.

WASHINGTON, February 1.

President Wilson has formally disapproved the recommendation of the Attorney-General to commute the sentence of Eugene Debs.

TURKS SURRENDER TO GREEKS.

LONDON, February 1.

The Greek Legation announces that 2,000 armed Turks headed by Edhem Bey surrendered to the Greek army in Asia Minor.

## SPORT.

BILLIARDS CHAMPIONSHIP.

V.R.C. TOURNAMENT.

At the Victoria Recreation Club last night, E. Guimaraes and Ng Sze Kwong met in the first game of the annual tournament for the Billiards Championship of the Colony, and a very interesting game resulted in a win for Guimaraes by 500-381.

The breaks of the evening were—Guimaraes, 34, 30, 28, 27, 26, 25, 21 and eleven smaller double figures. Ng Sze Kwong, 48, 23, 20 and five other double figure efforts.

TONIGHT'S GAME.

To-night a very good game will be witnessed when F. Ozorio meet A. G. Pile.

H.O. KONG TONG CUPS.

PALACE HOTEL HANDICAP.

Last night's play at the Palace Hotel, Kowloon, in connection with the competition for the above cups, resulted in Sgt-Major Stroud (-200) beating J. Seymour (-125), 250-62; and Wong Po Hong (-200) defeating J. Snook (-200), 250-212.

The highest breaks of the matches were—Stroud, 32, 24, 23 (twice), 21, 20, 19 and 18. Wong, 28 (twice), 19, 18 (twice), 17 and 15 (twice). Snook, 29 (twice), 20, 17 (twice) and 16.

TONIGHT'S GAMES

To-night the following games will be played—6 p.m.—J. E. Clapham (-125) v. T. B. Cliding (-300). 9 p.m.—R. Potter (-100) v. G. Thomas (-100).

INTERPORT GOLF.

SOME SHANGHAI COMMENTS.

The following comments on the team to Hongkong appeared in the latest copy of the *N.C. Daily News* to hand:—

The team of the Shanghai Golf Club to contest the challenge cup now in Hongkong's possession is now definitely ascertained to be not quite so strong as was originally hoped. For one thing it is known for certain that K. M. Cumming will not be included, and it was not possible on January 24 to state whether Captain Dewar will be able to travel. It was much hoped that he will, as otherwise it is possible that Shanghai will be able to send only four men. Of these four the following have already been announced—J. B. Ferrier, Marr Johnson and W. Roberts—and the services of W. J. Hawkins have also been secured for the team. He is a most useful player, and just missed qualifying for the championship this season. He ought to give a very good account of himself at Hongkong, and if Captain Dewar is able to take part, Shanghai's chances should be very good.

RUGBY.

CHALLENGE CUP GAMES.

The first round of the competition for the Hongkong Rugby Challenge Cup has been completed with the Navy heading the list with two wins out of two matches played. The Club are in second position with one win, while the Army had had very bad luck in losing both games. The second round of the competition is scheduled to be played on Wednesday, but there is talk of the Army experiencing great difficulty in raising a team owing to the camp training, and the Navy have very sportingly agreed to postpone the match for a week. The next game on the programme—Club v. Army—is down for decision on the Club ground on Saturday, kick-off at 4.30 p.m. The Army will be able to raise a team by then, and what is more, they expect to be at their full strength. The Club too, hope to field a strong XV, so that a very keen and exciting struggle is anticipated.

GOVERNMENT HOUSE.

H. E. the Governor gave a dinner party last evening at Government House. The guests present were Mr. and Mrs. N. L. Smith, Sir Eric and Lady Stewart Taylor, Major G. H. M. Surges, D.S.O., Pay Lt. Com. and Mrs. Stern, Capt. and Mrs. Leslie Smith, Lieut. E. H. O'Connor, R.N., and Mrs. and Miss Healing.

LOCAL RESIDENT'S IMPRESSIONS.

—

Richard Oliver writes from Hong-

kong to the *Daily Mail*—

The Chinese coolie who pulled the

riches knew me quite well, and he

was surprised when I told him in

"pidgin English", to go past the golf

club-house.

Often he had raced up the Happy

Valley, cheerfully pulling the rich-

esha and myself, while the rays of

a tropical sun beat down upon his

bared head. He usually waits

patiently for me, or arranges his

fares so that he is near the club-

house when my round of golf is

finished.

But to-night he was puzzled be-

cause we passed the cricket ground;

the tennis courts, the racetrack, and

the golf club house and continued on

to the gate of the European cemetery.

For my self-imposed task was some-

thing more important than physical

exercise, important as that is in this

climate of South China. I wanted to

pay a tribute to one whom I admired

but whom I had never met.

We had one thing in common.

From the Far East we had sent

"home" to *The Daily Mail* im-

pressions concerning this remarkable

people of China. Perhaps some

millions of English readers have been

interested in what we have written.

We had a common bond forged by

the printing presses of Carmelite

House.

And as I made my way through

the streets of Hongkong, crowded as

they were with the seething mass of

Chinese men, women, and children,

I thought it strange indeed that,

although unrequested, yet my journey

had been inspired by the London

*Daily Mail*. For probably I should

never have admired Hilda M. Love

but for that journal; possibly I should

never have heard of her life or her

death but for the articles which she

contributed to its columns.

We are all friends in this small

British community. Death takes his

toll here as elsewhere. Although the

wonderful results of British adminis-

tration and scientific progress may

be seen in the comparative figures

which show the decreasing death-rate

among Europeans in this Colony dur-

ing the last few decades, yet the

Great Tragedy at times suddenly

arrests our attention, here as else-

where. I have followed reverently

along the Happy Valley behind the

mortal remains of more than one

good friend who lies asleep in that

beautiful spot on a beautiful island.

There was the popular broker who

told me in the club on Tuesday night

of how in three months he would

retire to a quiet life in the country

in the land that we exiles always

can never die died on Wednes-

day night; and on Thursday after-

noon I stood by his open grave in

the Happy Valley. I dropped a

handful of the soil of this wonderful

island so that he might know that a

fellow Briton had helped to cover

him in his last long sleep in an alien

land.

There are also those who had offered

me the hand of friendship in my

early days in this strange Far East—

people whom I can never forget.

Some few of them are sleeping with-

in a stone's throw of the racetrack

and the golf links of the Happy

Valley of Hongkong.

For, with a flash of genius such as

was revealed by the idea of the

burial of the "Unknown Warrior" in

Westminster Abbey, some early

British pioneer consecrated the Happy

Valley of Hongkong to two great

purposes.

To the left of the road through it

is the ground devoted to the British

sports which keep us fit and which

so often remind us of "home." To

the right is the sacred ground where

we exiles reverently place those of

our own nationality who will never

again journey across the seas to their

"home" of this world. Of them we

think happily as we glance across at

their quiet resting-place, while we

play the games which have done so

much to mould the British character.

Those games have taught us to be

sportsmen; and so we neither envy

nor sorrow for our dead, but always

think gladly of all that was best of

them in life.

Sometimes a tired, sick stranger

from Borneo, Java, Singapore, or

Bangkok journeys northward to the

little island for the sake of our so-

called winter. It is, at any rate, a

relief from the unchanging climate of

places near the Equator.

Such a one was Hilda May Love

Carter, who had contracted typhoid

at Bangkok. Although we had not

met, *The Daily Mail* had introduced

us; but, alas! until I read in my

London journal the sad news of her

death I was unaware that she had

come to Hongkong.

Six weeks had elapsed since they

carried her on that last journey

along the Happy Valley before the

local newspapers were aware that

the Mrs. Carter, who died in the

hospital of the French convent was

the Hilda M. Love who was famous

as a writer.

The entry in the official register of

this Colony is No. 184, and the sad-

dest thing recorded is that she was

quite young, with the possibility of

some years of life before she would

have reached one half the age usually

allotted to mankind by the prophets

### MAGNETIC STORMS.

### HOW THEY ARE CAUSED.

### SCIENTISTS CONFLICTING THEORIES.

A short time ago, from an analysis of the registers of magnetic storms in different parts of the earth, Professor Chapman produced a tentative theory as to the process by which energy from the sun, generally regarded as the cause of these storms, could reach the earth. Professor Lindemann has made several objections to this theory, and the controversy provided the subject of recent discussion at the Geophysical Society's meeting at Burlington House.

Professor Chapman's original idea, since modified, was that a beam of ions, carrying electricity of one sign only, could be projected from the sun to the earth, or rather the outer atmosphere, and by bombardment of this envelope so alter its magnetic charge as to cause a magnet disturbance in the earth.

### A BATTER DEEP SUBJECT.

To this Professor Lindemann made three powerful objections, that the quantity that could be obtained in this way was 200,000 lines too small; that only one ten-millionth of the amount

could get across from the sun to the earth's atmosphere, and that on the most favourable assumption the most favourable part of this only a six thousandth part of this could reach the earth itself. Feeling bound to suggest an alternative theory, he urged that any emanation coming from the sun must be of both kinds, positive and negative, and said that he preferred the idea of a cloud ejected as such from the sun's atmosphere with a velocity of about 1,000 kilometres per second, which would take rather more than a day to reach the earth, and thus fit two known facts, one, that such clouds are seen to be projected from the sun at such a velocity, though they cannot be traced far on their course, and the other, that magnetic storms do often follow, by rather more than a day on the average, appearances of sun spots on the central meridian of the sun.

DEEPER STILL.

Professor Chapman thought that the new hypothesis would result in storms of the opposite sign to those actually observed, but was prepared to modify his theory, and accept particles of both signs as emanating

equally from the sun, but he preferred to work at the earth end.

One question that came up at the meeting referred to the appearance of the Aurora, and Mr. Wright, of the Antarctic expedition, said that some of their observers claimed to have seen it quite near the ground, very much lower than Professor Chapman's limit of 100 kilometres.

Finally Dr. Eccles explained some of the difficulties found in working with wirelessly at night, difficulties due apparently to the earth's magnetic field, and he asked for a theory that would fit his facts as well as those of the magnetic registers.

## INDIANS AND WORDS- WORTH.

Of what nature is the "trouble"  
in India that we have been hear-  
ing about? Is it worse than a dis-  
crepant estimate allows us to know,  
or is it exaggerated by the meagre  
allusions of Reuters? So we ask  
ourselves, and with a shudder  
shrug, perhaps, confess our igno-  
rance and helplessness.

The propaganda of Mr. Gandhi  
is plain enough. He is advocating  
a peaceful boycott, promising the  
people that twelve months' loyal  
observance of it will make the  
British government more reason-  
able. We perceive that he will not  
get that loyal observance. He  
asks above all for passivity, and  
impatience mobs have rioted. He  
asks for things that require great  
unselfishness, and is unlikely to  
find that everywhere. Lawyers  
are to refuse to practise in British  
courts. Students are to retire from  
British schools. Indians wearing  
British honours are to surrender  
them. In short, nothing British,  
whether it seem good or bad, is to  
be countenanced. This is "asking  
too much."

What is the grievance that occa-  
sions this protest? Here we have  
not been particularly advised. We  
surmise that the Indians are dis-  
satisfied with the Morley-Minto  
reforms. We conclude that they

have discovered that the powers  
conceded to them are empty forms.  
It must be that the introduction  
of the elective principle into pro-  
vincial affairs, the enlargement of  
the Legislative Councils, the ad-  
mission of an Indian member to  
the Executive Council, the estab-  
lishment of an unofficial majority  
(in the provinces at least) has been  
discovered to confer no real power  
and no genuine responsibility, or  
training for it. The political  
Indian has perhaps discovered that  
the recent gift had a sting to it.

Encouraged for years by our  
promises of ultimate self govern-  
ment, backed up by educational  
preparation for it, it would seem  
that the Indian has been offended  
by the big advertisement of con-  
cessions that proved hollow when  
grasped. It is difficult to think of  
any other grievance, without being  
driven to one of such long stand-  
ing that it is unlikely to have  
aroused so fresh a resentment.  
One good authority tells us that  
among educated Indians he found  
many definitely and finally embittered  
against the British connection,  
because of "some rankling  
memory of insult at the hands of  
a European. He takes the precau-  
tion of adding that such conduct  
is not typical of the Englishman  
in India, but on the other hand he  
averts that "the class of English-  
men who not merely offer but con-  
sider it their duty to offer these  
insults to Indians must also be  
numbered in hundreds." Admit  
that, and you admit sufficient. No  
further explanation will be needed.  
The Indian is a sensitive human  
being; there is nothing he resents  
more than an insult to his dignity.  
It is pathetic, it is illuminating,  
to read in the Times literary sup-  
plement a collection of quotations  
from the poet Wordsworth. They  
were taken, we are told, practically  
verbatim, from recent answers to  
examination questions to fourth  
year students in an Indian college.

One of them points out that  
Wordsworth's poetry is mostly  
materialistic. Wordsworth's poetry  
disclosed to him that "European  
cannot be destitute of the principles  
of morality and virtue, but that  
they must possess kind feelings  
and tender affections in common  
with all people." For the light  
that it throws upon the spiritual  
progress of the West, Words-  
worth's poetry is of great impor-  
tance to Indian students. It  
would be impossible to conceive a  
revelation more naive or more ter-  
rible than this, that these Indian  
youths needed something to con-  
vince them of our common human-  
ity. Possibly the publication of  
these comments will have surprised  
some Europeans into the realiza-  
tion that even Indians have tender  
affections and sentiments.

Another student of European  
civilization tells us that "at first  
glance it seems to be altogether a  
material one, and the product of  
the efforts of politicians and en-  
gineers alone." For him Words-  
worth's poem seemed to be "a coun-  
terforce, benumbing the true spirit  
of society." Another  
even finds it "rather strange that  
a poet like Wordsworth, with the  
turn of mind of a mystic, should  
have been born in England," rather  
than in the Orient. A comment  
like that shows how our representa-  
tives in India have been mis-  
representing us far more than any  
specific complaint could do. The  
conclusion of that particular student  
was that Wordsworth, though an  
Occidental spirit, was "evidently  
an Oriental in heart." When,  
oh when, shall we bring all men  
to see and know that geographical  
and national boundaries are arti-  
ficialities that in no way divide the  
spirit of our common humanity, to  
see and know that we all have the  
same sorrows and joys and aspira-  
tions, to see and know that in  
essentials we are members of one  
family? Europeans in India, as in  
other Asiatic lands, have certainly  
not as a class realized this. Hence  
trouble.

It will be remembered that it  
has been stated that Lt. Langdon of  
the U.S. Navy who was shot by a  
Japanese sentry was a married man  
and that his wife had committed  
suicide. A Boston telegram dated  
January 16, states that William C.  
Langdon, father of the late Lieutenant  
Langdon of the United States cruiser  
"Albatross," scouted the report that the  
Russian wife of Lieutenant Langdon  
had committed suicide. He said it  
was absurd because his son was not  
married. "I am confident," he  
declared, "positively confident, that  
he would never marry."

## BELILIGS PUBLIC SCHOOL.

### ANNUAL PRIZEGIVING.

#### LADY STUBBS GIVES AWARDS.

The annual prizegiving of Beliligs  
Public School took place this morning.  
The ceremony being held at Queen's  
College. Lady Stubbs distributed  
the awards in the presence of a large  
gathering of scholars and a number of  
prominent visitors. Among the pro-  
minent guests were the Hon. Mr. E.  
A. Irving, Director of Schools, and  
Miss Irving, and Mr. Ralphs, Inspec-  
tor of Schools.

The Headmistress, Miss C. E.  
Clarke, read the annual report, which  
was received with applause. It fol-  
lows:

In 1920 the School was open on  
183 days, and the average daily  
attendance was 508, a record. The  
school is full, and in the early months  
of the year, when most of the new  
girls come, many would be pupils had  
it not been for the fact that it is only  
with great difficulty that a room has  
been arranged for the new Normal  
Class.

There have been several changes  
in the English Staff. During my  
absence on leave, Miss Cooper acted  
as Headmistress, but was trans-  
ferred to the Peak School. On my  
return, Mrs. Updell, who  
teaches in the mornings only, Mrs.  
James, Mrs. Forster, and Mrs. Church  
joined the staff. Mrs. James for three  
months only. Mrs. Ritchie resigned  
at the end of December, and is much  
missed. Miss Ng Mui Han resigned  
from the Vernacular Staff. On  
account of the large numbers in the  
school, an extra Chinese Mistress,  
Miss Cheung Sui Ying, was appoint-  
ed.

An entrance fee of \$3 is now paid  
by all new girls, who are medically  
examined by Mrs. Hickling.

All the candidates for the Univer-  
sity Locals took the Examination in  
December. Six girls entered for the  
Senior, and all passed. Eleven sat  
for the Junior, and ten passed. Six  
Distinctions were gained. Five girls  
entered for the Preliminary Oxford,  
and two passed. Apart from outside  
examinations, all classes were  
examined in all subjects in June and  
December, and the results recorded  
in the Teacher's Books; these were  
forwarded for approval to the In-  
spector of English Schools and  
Inspector of Vernacular Schools respec-  
tively. The work is tested every  
week in class examinations, set and  
corrected by the mistress in charge,  
while occasional papers are set  
by the Headmistress or the Senior  
Vernacular Mistress.

Since September, Mrs. Forster has  
directed the work of those Junior  
Assistants who teach English in the  
Vernacular classes. The gain to the  
school will be two fold: the standard  
of teaching will be raised, while the  
extra training given to the teachers  
cannot but bring good results.

Seven past pupils, all at present on  
the Staff, took the Women Teachers'  
Examination (Technical Institute) in  
June, and six passed. Two courses  
of Cookery Lectures were attended  
by those members of the Staff, who  
belong to the Victoria Nursing Divi-  
sion, and at the examination held in  
June every candidate gained Distinction.

It is good to know that the girls  
are as anxious as ever to give help  
to those who need it. The sum of  
\$1,232 was contributed to the Minis-  
tering Children's League, and a  
collection for the North China  
Famine Relief Fund amounted to  
\$242.60, while monthly subscriptions  
are paid to the Netherlands Hospital  
and the Kowloon Orphanage.

The Prize Giving does not seem  
himself without Mrs. Titcher, she  
alas, has left the Colony, but her  
interest in the school is as keen as  
ever, and I know she will be delig-  
hted to hear the news of its progress.

The thanks of the school are due  
to the subscribers to the Prize Fund  
for their kindness in contributing the  
books, to Mrs. Hickling, for the  
interest and help she always gives in  
all matters connected with the  
Nursing Division, and her voluntary  
work in examining the girls' eyesight,  
and to the Manager of Nestle's Milk  
Co. who not only sent a generous  
consignment of condensed milk for  
the use of the Cookery Class, but  
also provided a prize for an examina-  
tion held in February.

Also I wish to thank the Head  
Master of Queen's College for lending  
us this hall.

In conclusion, I am sure Miss  
Cooper joins me in thanking the  
Staff for a year of hard work, done  
loyal and wholeheartedly.

Lady Stubbs then distributed the  
prizes. Afterwards she expressed her  
gratitude to the girls for their work  
for the Ministering Children's  
League. She thanked also Miss  
Cooper for working so hard. She  
said she knew little of the school, but  
she had asked Miss Clarke if she  
might come and visit it and explain  
to the girls what was done with the  
funds they had collected.

Lady Stubbs was kindly applauded,  
and then two little girls brought up  
a beautiful bouquet of flowers and  
presented it to her. This brought the  
proceedings to a close.

### YACHTING.

#### R.H.K.Y.C. CHAMPIONSHIP.

##### SATURDAY'S RACE.

The sixth championship race was  
sailed off on Saturday in a very  
variable wind. A fair breeze held  
all classes had reached the North  
Fairway Buoy which was the first  
mark of the course. From there to  
Trocas Rock buoy some yachts saw  
other competitors passing them on  
either hand whilst they themselves  
lay becalmed; eventually the wind  
came very strongly from the N. E.  
Cust Rock Buoy was taken to star-  
board as the last mark in an 8 3/4  
miles course. "Rolla" saved her  
time in the Handicap Class. "Ailsa"  
beat "Daphne" after an exciting  
race in the One Design Class. In the  
Hayward Heys "Ursula" saved her  
time, as did "Toinette" in the Gales.

## CAPTAIN'S DISMISSAL.

UPHELD BY COURT.

DAMAGES REFUSED.

Judgment for the defence was given yesterday in the Summary Court by the Puisse Judge, Mr. Justice Wood, in the suit of Captain Harold Percy Robinson, former master of the steamer "Haitian," against the owners of the vessel, the Man Wing Steamship Co., Ltd., of 38, Bonham Street, for \$1,000 for alleged wrongful dismissal.

The plaintiff claimed that he was entitled to \$1,440, which was three months' wages at \$480 a month, in lieu of notice. He waived \$440 to bring the claim within the jurisdiction of the Summary Court.

Mr. W. B. Hind, of G. K. Hall, Burton & Co., appeared for the plaintiff; Mr. D. J. Lewis, of Johnson, Stokes & Maxwell, appeared for the defendants.

His Lordship said that he would not call upon the defence, but would enter judgment for the defendants, with costs. Captain Robinson had claimed damages for wrongful dismissal. The dismissal was not denied, but had been justified by the defence on two grounds. The first was the conduct of Capt. Robinson in ordering certain repairs to be done on his ship without authority; the second was the state of the ship's log-books, discovered after dismissal. In consequence of the view he was taking on the first ground, he proposed, with the leave of both parties, not to consider the second ground at all. He would not like, himself, to give an opinion whether the state in which the log-books were found did in itself form a proper ground for dismissing the master of a ship. If the parties desired a ruling on that point he would ask leave to sit with a Marine Assessor in that matter.

Continuing, he said: As to the conduct of the master in ordering these repairs, I find as a fact that it has not been shown that in so doing he was in any way dishonest. It has also not been shown that he was disobedient to any expressed order given by his employer. I find that in all these repairs he acted without any authority whatever. He has given certain evidence as to a message which he received while the work was in progress. That message, as it seems to me, could constitute no authority of any kind, and I think I should say that the fact it has been adduced here as authority seems to me not quite straightforward. Capt. Robinson, when he took his ship into dock, took it there under orders, that a contract with the Kowloon Dock Company might be carried out, the work being mainly in the engine-room. In his own mind, Capt. Robinson decided that additional repairs to the ship were desirable. It is not necessary for me to find whether these repairs were necessary to render the vessel seaworthy; I do find, however, that a certain number were, and a certain number were not so necessary. On looking through the bill which has been put in I see no reason to dissent from the estimate given by Mr. Lewis that some \$10,000 worth of the repairs ordered, but of an amount of \$30,000 or more, may be considered reasonably necessary. Capt. Robinson, desiring these repairs, made no report to his principals, who were in the Colony; he took the bit between his teeth and made his own arrangements. From his evidence it appears that not only did he attempt, without authority, to pledge the credit of his principal for a large sum, but that he acted on his own initiative mainly because he supposed that if he asked for authority, authority would not be given.

I think a judge would put the case to a jury somewhat as follows:—Is it reasonable, that an employer should continue to employ a servant who has attempted to pledge his credit, without authority, for a large sum, or has the action of the master of this ship been such that it has destroyed all possible confidence between the employer and servant? In this case I personally do not see how the owners of the ship, when they discovered what was going on, could have been reasonably expected to continue the appointment. Capt. Robinson should have made a report on the condition of the ship; he should have submitted his suggestions, and he should have allowed his principals an opportunity of giving him instructions or making their own contract. Instead, he took a course which had no reference, I think, to his employers' interests at all. I do not wish to say he acted against his employers' interests; what he did, he did indepen-

## PIANOFORTE RECITAL.

PROF. SKLAREVSKI'S SERIES.

A BRILLIANT PERFORMANCE.

Professor Alexander Sklarevski, the eminent pianist, gave his fourth pianoforte recital at St. Andrew's Hall yesterday evening before a large audience which was roused to a high pitch of enthusiasm by his brilliant playing. So insistent was the applause at times, especially after his masterly interpretations of Mendelssohn's exquisite "Spinning Wheel," Schubert-Tausig's inspiring "Military March" (played by request), and Liszt's beautiful "Campanella," that Professor Sklarevski, who was made the recipient of a garland of flowers, had perforce to submit the encore demanded by a delighted audience.

His programme was as follows:—

I. Weber.—(a) Invitation to dance.

Mendelssohn.—(b) Song.

(c) Spinning Wheel.

(d) Hunting Song.

II. Chopin.—(a) Polonaise, C minor.

(b) Nocturne.

(c) Mazurka.

Schubert-Tausig.—(d) Military March (by request).

III. Rubinstein.—(a) Barcarolle.

(b) Valse.

Capriccio.

Rachmaninoff.—(c) Prelude.

Liszt.—(d) Campanella.

Notwithstanding the announcement that yesterday's recital was the last Professor Sklarevski will give in Hongkong, local music lovers are united in the hope that the distinguished pianist may be induced to give a further display of his high musical talent before he leaves the Colony.

## SUIT FOR DAMAGES.

RETURN OF GOODS.

SUMMARY COURT ACTION.

A claim which has been before the Court on previous occasions to determine the responsibility of one of the defendants, was set for hearing in the Summary Court this afternoon before the Puisse Judge, Mr. Justice Wood. It is the suit of the Hop Chi Cheong firm, of 40 Lower Lascar Row, against Yick Fat & Co., and Yick Fook Man, a partner in the firm.

The claim is for the return of 44 packages of goods shipped by the plaintiffs on the steamer "Chekiang" under a bill of lading signed by defendants on June 24, 1920, together with \$600 damages; or, in the alternative, damages to the sum of \$1,000.

The plaintiff is represented by Mr. Turner, of Deacon, Looker, Deacon and Harston; the defendant, by Mr. Crew, of Hastings and Hastings.

The defence raised the question that the action was not properly directed against the partner in the firm, but the Court held otherwise, at a previous hearing. The suit therefore proceeds on the principal issue in the case.

Another clean bill of health was returned for the Colony yesterday. Last week six Chinese died from fever, and two from diphtheria. Two cases of paratyphoid fever, one British and the other Indian, were also reported.

Referring to a case cited during the hearing, His Lordship said he thought the judges were right who laid down the principle that where the conduct of the servant destroyed the confidence that should exist between master and servant, the master could not be expected to continue the employment. That principle governed this case and on that ground he found for the defendant with costs.

Mr. Lewis said the defence had not suggested that Captain Robinson had committed any act of dishonesty. He applied for a special order for costs. These had been increased to the defendant, he said, because the plaintiff had employed in turn several firms of solicitors, with all of whom the defendant's solicitors had been required to correspond. His Lordship said he could consult the Registrar. If any action was possible in the matter, he would hear the parties in Chambers.

## MIROVA-PODOLSKY.

Announcement is made that Miss Vera Mirova, the dancer, and Mr. Leo Podolsky, the pianist, both of whom made such a favourable impression in Hongkong on their recent appearances, will give another matinee recital here on Monday, February 7. It will take place in the Theatre Royal. They have been playing in Macao, and will appear in Canton, at the Club Theatre, on Wednesday.

The programme for the recital here will be entirely new, and will comprise some numbers in which the classic art of Miss Mirova and the masterly playing of Mr. Podolsky will appear to best advantage.

Two lots of Crown land (Kowloon Island Lot No. 1404 and Island Lot No. 2321) were yesterday afternoon sold by auction at the offices of the Public Works Department, for \$11,550 and \$9,900 respectively. The purchasers were Mr. Sun Laiting and Mr. Tam Wing-on. The first lot has an area of 60,000 square feet while the area of the second lot comprises 9,800 square feet. The upset prices for the two lots were \$9,000 and \$5,450 respectively, and the annual crown rents \$344 and \$102.

## "WEST CAJOOT"

having arrived from San Francisco via ports on Feb. 1st, 1921. Consignees are hereby notified that their cargo is being landed at their risk into the hazardous and/or extra-hazardous Godowns of the Hongkong and Kowloon Wharf & Godown Co., Ltd., Kowloon, and stored at Consignees' risk.

Consignees of Cargo must produce an Import Permit signed by the Superintendent of Imports and Exports, Hongkong, before Bills of Lading will be countersigned.

All broken, chafed and damaged cargo is to be left in the Godowns where it will be examined at 10 a.m. on 6th Feb. 1921, by the Company's surveyors Messrs. Carmichael & Clarke.

All claims must be presented within ten days of the steamer's arrival here, after which they cannot be recognised. No claims will be recognised after the goods have left the Godowns and cargo undelivered on and after 8th February, 1921, will be subject to rent.

Consignees are requested to send in their Bills of Lading for countersignature immediately.

STRUTHERS & DIXON, INC., Agents for Dir. of Opr. U.S. Shipping Board.

Emergency Fleet Corps.

Hongkong, February 1, 1921.

**LITTLE BODIES AND BIG PAINS.****TEETHING WITHOUT TEARS THROUGH BABY'S OWN TABLETS.**

The misery and pain that many babies suffer through teething time is expressed eloquently enough in fits of pitiful crying, fever, refusal of food, and diarrhoea—or perhaps constipation. Baby's Own Tablets—guaranteed to contain no opium and to be perfectly harmless—act like magic, relieve pain, comfort baby and give rest to the mother, while teething progresses without tears.

Baby's Own Tablets, the Canadian children's remedy, are safe and pleasant for the youngest infant and the growing child. Besides being so helpful during the teething period they remove constipation, allay feverishness, cure colic, indigestion and worms.

**NEW CATHEDRAL HALL.**  
**OPENED BY GOVERNOR.**  
**ANNUAL CHURCH MEETING.**

In the presence of many of the Church Body and the congregation, H. E. the Governor yesterday afternoon formally opened the new Cathedral Hall, adjoining St. John's Cathedral. After a short ceremony, the Hall was appropriately employed for the annual meeting of the seat-holders and subscribers of the Cathedral. The annual report was received, the accounts were adopted, and action was taken in regard to increasing the salary of the Bishop of Victoria, and several other matters.

The Cathedral Hall is an attractive structure, in keeping with the architecture of the Cathedral, and lofty, cool, and well lighted. Its cost was about \$52,000. It will accommodate 250 people. There is a committee room, and cloak rooms.

The Bishop of Victoria, Rt. Rev. C. R. Dwyer, D.D., presided. The ceremony opened with the singing of the hymn, "The Church's One Foundation." Mr. Denman Fuller, the Cathedral Organist, accompanied on the piano.

The Bishop then made a few introductory remarks, expressing his great pleasure in asking the Governor to open the Hall, and referred to the fact that it was the Governor who had laid the foundation stone eight months ago.

The Governor, greeted with applause, said the Hall had been built to fill a long-felt want, as a meeting place for those activities of the corporate body of the Church which have not hitherto had a home themselves—the meetings of seat-holders and similar gatherings. He continued: "In these days it is, I am afraid, impossible to say that the Church in Hongkong has shown itself to be in a very flourishing condition. I fear that the attendance at the Cathedral shows that the congregation of the Church of England is not so enthusiastic as it might be. Let us hope that as the result of the strengthening of the corporate activities of the congregation by the establishment of this Hall we may see an improvement in this state of things. The uses of this Hall are many, and I am sure that it will prove to be the most valuable institution to the Diocese, and in this hope and in the hope that the blessing of God will rest upon the deliberations which take place here, I declare this Cathedral Hall to be open."

The declaration was received with applause. Afterwards the Bishop gave a dedicatory prayer, and the ceremony came to an end.

The assembly then resolved itself into the annual meeting of seat-holders and subscribers. The Bishop presided and with him on the platform were H. E. the Governor, the Senior Chaplain (Rev. H. Copley Moyle), Archdeacon Barnett, the Rev. J. T. Holman (assistant chaplain), and the following lay members of the Church Body—Commodore W. Bowden Smith, and Messrs. A. H. Compton, L. Forster, J. W. C. Nelson (hon. treas.), and W. L. Patterson (hon. sec.). Amongst the seat-holders and subscribers in attendance were: The Hon. Dr. Claud Severn, the Hon. Mr. P. H. Holyoak, and the Hon. Mr. H. E. Pollock, K.C.

The minutes of the last annual meeting were read and confirmed, and the Senior Chaplain, the Rev. H. Copley Moyle then read the annual report, giving some particulars of the new Hall, and discussing Cathedral affairs at length. He said: "The need of such a building has long been evident to all who have taken an active part in the work of the Cathedral, but during the war no active steps could be taken to meet the need. Soon after the war was over an anonymous donor undertook to give a quarter of the cost of the building. With this promise to encourage us, we asked for \$40,000. Thanks to the generous response made to this appeal, we have been able to erect the Hall and open it free of debt. The clearing of the site proved a difficult and dangerous work and there was a regrettable accident by which two coolies lost their lives. A special collection was made in the Cathedral on

Sunday, April 18, which amounted to \$328, and which was given to the relatives of the workmen who were killed. His Excellency the Governor laid the foundation stone of the Hall on May 30, and the building progressed rapidly at first, but it ought to have been finished last November, according to the contract. Though he has exceeded the time allowed, the contractor, Mr. Lam Woo, has had the work well done. The strength of the retaining wall was well tried by the heavy and continuous rains of last summer and stood the test. The building is solid and good and ought to stand for many years. At present we have put in only the absolutely necessary furniture, for this reason: We were given to understand that the roof of the Cathedral was attacked by white ants and that in order to repair the damage it would be necessary to close the Cathedral entirely. In that case services would have been held in this Hall, and we should have had to put in here as much as possible of the Cathedral furniture. Now the architects hope to have the Cathedral roof repaired in sections, and not to close the whole building. I mention this to explain why you see so little furniture in the Hall. We are very grateful to all who have helped to provide this Hall and we hope to see it put to much use as a central meeting place, not only for the work of the Cathedral but also for Diocesan purposes. The architects, Mr. Leask and Mr. Wood, have given much thought and time to the building and our thanks are due to them and their assistants. Owing to the kindness of an anonymous donor the Hall has an endowment of \$10,000, so it will not add to our Cathedral expenses."

The report touched on the Bishop's appeal for \$4,000 to maintain the missionary work of the Diocese, and the generous response it had received, as then referred to the Diocesan Conference in February last. It went on: "The Conference recommends that the Island of Hongkong should be regarded as one parish under the Cathedral and that St. Andrew's should be the parish church for the New Territory. Since then St. Peter's Church has been regarded as a daughter church of the Cathedral and an effort is being made to provide a more ornate service at St. Peter's to meet the wishes of those who are often described as Anglo-Catholics. It is hoped in time to provide a sung Eucharist at St. Peter's every Sunday."

Reference was made to the successful continuation of the children's service, begun at the end of 1919, and to the fact that a crippled child in the Home for Waifs and Strays has been adopted and is maintained by the collections from these services. For this purpose \$50 was sent home last year. A handsome Sunday School banner presented by Mr. Fleming is used at these services. A Flower Service on November 7, the anniversary of the children's service, seemed very popular. The flowers were sent to the hospitals. Mr. Fleming's departure was a great loss to the work amongst children.

Referring to the organ, the Chaplain mentioned that Mr. Denman Fuller raised for the fund during the year \$2,000. Mr. Denman Fuller had applied himself to the improvement of the organ with great energy and much work had been done. It had been necessary to take out most of the works of the instrument and pneumatic action is being substituted. A new method of blowing, for the failure of the electric blower, has also been installed. The new tuba is in place and will shortly be ready for use.

Mr. Fuller had been working hard to improve the choir which now numbered 30 adults and 11 boys. Thanks were due to the members of the choir and to the Rev. J. B. Pimm and some officers and men of H.M.S. "Hawkins" for help at the evening service.

In an account of the events of the year, the report mentioned specially that in April, Sir Paul Chater gave \$25,000 to endow the Cathedral. This magnificent donation, with a like amount to St. Andrew's was a thank-offering for the fifty-sixth anniversary of Sir Paul's landing in the Colony. It was to be hoped that the endow-

ment would not diminish the contributions of members of the Church, but would enable a more efficient work to be carried on, and that it would be possible to make all the seats in the Cathedral free and have an adequate staff of clergy, so that more spiritual help might be given to British people here.

After much consideration, the Church Body had accepted plans for the repairs which Mrs. Bowdler offered to present to the Cathedral in memory of her late husband. It was to be made of marble and alabaster. The work was being done by Messrs. W. Morris & Co. of London, and it was hoped would be erected in the course of the year.

The report also referred to the preparation for the erection of the War Memorial unveiled on the previous day, to the departure of Bishop Lander and the endorsement of his successor, to the contribution raised towards the Westminster Abbey Restoration Fund and to the recently reported discovery of the ravages of white ants in the Cathedral roof.

Dealing with the work of the Cathedral personnel, the report mentioned that the Rev. J. T. Holman is here on an agreement for 18 months, and that the Rev. H. Copley Moyle's agreement expired in April and has been renewed indefinitely subject to six months' notice on either side. As to the work of the clergy, the visitation of the gale had not been heavy as few European prisoners served sentences there; all the local hospitals were visited regularly and for special cases. The Holy Communion had been celebrated for the sick and dying in hospital and private houses on many occasions.

An account of the work of the C.E.M.S. which had suffered through the departure of Mr. Fleming and Dr. Earle, of special efforts for deepening spiritual life, and of the changes during the year in the Church Body, led to a comment upon the difficulty of carrying on Church work in the Colony owing to the rapid changes of population. The report concluded by remarking that though the needs of the future hardly came into a report on the past year, yet it was acquiring sites for new Churches in places like Repulse Bay where a British population seemed likely soon to be growing up. Mr. Moyle expressed cordial thanks to the Press for its help, and to all who had worked for the Church during the year. "The Cathedral," he said, "is now better equipped than it has ever been and we may confidently hope that the work will, with God's blessing, grow and prosper."

The Bishop thanked Rev. Copley Moyle for his interesting and comprehensive report.

The accounts showed a debit balance of \$2,678.78 in the General Fund. The \$25,000 Endowment Fund provided by Sir Paul Chater has earned \$937.10s. interest. The Cathedral Hall Fund shows a balance in hand of \$8,026.25, and there is the \$10,000 Endowment Fund referred to. The War Memorial Fund showed the amount so far expended to be \$100, leaving a balance of \$2,136.43. The Organ Fund shows expenditure of \$1,140.43, leaving a balance of \$98.65. The balance in hand in the Assistant Chaplain Fund is \$326.65, and \$15,000 invested.

Moving the adoption of the Accounts, the Hon. Secretary, Mr. Patterson, referred to the repairs necessary in the Cathedral. In addition to the repairs to the roof, white ants had also been discovered in the tower, the floor of which was in a condition bordering on dangerous. The ants had also appeared in the flooring of the nave, a great portion of which would have to be renewed. Tenders had been invited, and the lowest was \$2,700, which only covered the work in sight, and did not include the nave. It was impossible to forecast the cost until the ceiling boards had been removed, and until they had had opportunity of fuller examination of the flooring in the nave. Although owing to the munificence of Sir Paul Chater the financial position was better than it had been for many years, the Church Body would have to adopt a very conservative policy and consider how to meet the heavy expense that might be incurred in effecting these extensive repairs. While on the subject, the Chater Endowment Fund had been converted by the Trustees into dollars, and he understood that the Cathedral Funds had greatly benefited by that. The Choir Fund was not shown this year; it had been merged into the General Fund.

Dr. Sanders seconded the adoption of the statement, which was carried. The meeting then took up the appointment of lay members of the church body. The following were appointed: The Hon. Dr. Claud Severn, Commodore Bowden-Smith, Mr. L. Forster, Mr. W. L. Patterson, Mr. N. C. Wilson, and Mr. J. W. C. Nelson.

Mr. J. B. Ross was re-appointed hon. auditor.

The next business considered was the compensation paid to the Bishop of Victoria. The Hon. Mr. H. E. Pollock said he thought it was well known that owing to the high exchange during the time their late Bishop was with them, the question of exchange compensation became acute. Lately they had witnessed a considerable drop in exchange and that had relieved the situation to a certain extent, but he did not think sufficiently. At present exchange

the Bishop's salary of £1,000 was roughly \$650 per month. Mr. R. Hancock had secured promises of a guarantee towards exchange compensation to the extent of \$2,500 a year, or \$200 a month, bringing the stipend up to \$850. He would suggest for the consideration of the meeting that they might add the sum of \$100 out of the general funds. He believed it was the intention of St. Andrew's Church to do something also in this direction. He begged to move: "That this meeting approve of the sum of 100 dollars per month for each of the months of the year 1921 being paid to the Bishop as Exchange Compensation out of the general funds of the Cathedral."

He should perhaps first have mentioned the matter of the Bishop's residence. The present building was in somewhat dilapidated and shabby condition, and the question would have to be taken up in the near future.

Hon. Mr. Holyoak seconded the motion.

Mr. Patterson moved an amendment that the amount of the vote be increased to \$200.

Hon. Dr. Severn moved a further amendment that the Bishop's salary be treated as salaries generally in the Colony have been treated in the last few years, by paying it at the rate of two shillings to the dollar, making it \$10,000 a year, and that the Cathedral make up the difference from time to time.

Rev. Copley Moyle: Out of the Cathedral funds?

Hon. Dr. Severn: Yes, unless some other body comes in to help. The Bishop, expressing diffidence in speaking on the matter of his own stipend, said he did not, however, regard it as a personal matter at all. His understanding was that when the Bishopric was formed an endowment fund was given, and as the result £1,000 had been paid the Bishop yearly. Out of that, however, the Bishop had to pay all official expenditure, including travelling money when he went about the big Diocese: pay for his own secretary, postage, stationery, typewriter, etc. There was no allowance whatsoever. When the Bishopric was offered him, it was computed to be worth £358.

Hon. Mr. Holyoak said that while he was in sympathy in considering the stipend utterly and disgracefully inadequate, he was of opinion that purely missionary travelling expenses should be borne by adequate allowance from the Church Missionary Society. The Cathedral was prepared to assist adequately in providing a worthy stipend for the Bishop, but it was not reasonable that out of that stipend should come what were purely missionary travelling expenses. They should be debited to the Society on whose behalf the travelling was undertaken.

The Bishop said that in his travelling he ministered not only to Chinese but to any Europeans who might be there. "He emphasised His Excellency's words about the encouragement of a corporate spirit in the Diocese and said it was not an easy thing to take over a great big Diocese like this, reaching 1,200 miles to Yunnan and away 40 miles to Peking. It was not his conception of duty that he should put his work in water tight compartments, and he never differentiated as to nationalities. That a man was man was how it appealed to him. He was not discussing the matter on his own behalf, but on behalf of the Bishopric. He wanted to make it right as easy as possible for his successors."

Hon. Mr. Holyoak still contended that they should have definite grant from the Church Missionary Society for this work.

The Bishop said that expense of travelling for confirmations were borne by the Church Missionary Society.

His Excellency said he thought that part of the endowment fund for the Bishopric was provided by the Church Missionary Society, which might therefore feel justified in making some claim on the Bishop during his travels in China. The question was not of much importance from the point of view of principle. What the Bishop wanted to ensure was that the Bishop's stipend was ample, and he did not think that anyone would contend that it was. He thought all were agreed upon that point, and having that basis of agreement he thought they might proceed to discuss what they could do to improve matters. If Mr. Holyoak could persuade the Church Missionary Society to assist further, the Diocese and the Bishop's successors would appreciate it.

Rev. Copley Moyle said the Cathedral had been paying \$100 since the Bishop had been here and he pointed out that it was not fair that the whole of the burden of exchange compensation should fall on the Cathedral. He would like it if the Cathedral could pay \$500; but it was a Diocesan matter and the Cathedral represented only part of the Diocese.

The Bishop concurred.

Hon. Mr. Pollock's motion was then put and carried.

The Bishop explained the object of the proposed Diocesan Conference. One of the difficulties here was that they had an English side and a Chinese side, a dual organisation. Last year, for the first time, a conference of representatives of the English side was held, and it was suggested that a similar conference be held this year. The suggested date was March 8.

Representatives from Canton, Macao and elsewhere would be invited and he hoped would be present.

The following were appointed to represent the Cathedral congregation at the Conference: Mrs. Pollock, Mrs. Knight, Hon. Mr. Pollock, Dr. Sanders, Mr. Forster and Mr. W. C. Nelson.

Mr. Compton expressed the thanks of the congregation for the generous endowment given by Sir Paul Chater and moved—

"That this meeting approve of the sum of 100 dollars per month for each of the months of the year 1921 being paid to the Bishop as Exchange Compensation out of the general funds of the Cathedral."

Mr. Forster seconded and the resolution was carried with applause.

The Bishop thanked His Excellency and the congregation for their attendance. The meeting then came to a close.

**SCHOOL SPEECH DAYS.**

**ST. FRANCIS' SCHOOL.**

The annual distribution of prizes of St. Francis' School (Italian Convent, Wanchai Branch), took place at St. Patrick's Hall yesterday afternoon. Among the large gathering were Archbishop Morrell, of Hongkong, Sir Robert and Lady Ho Tung, and the Rev. Frs. Robert and Maria.

Prior to the presentation of the prizes by Lady Ho Tung a very enjoyable concert was given by the scholars, including pianoforte solos, mandoline quartettes, recitations, songs, drills, and an entertaining fancy entitled "The Two Opposite Characters."

The Headmistress read her annual report as follows:—

The growth of the school is proceeding apace. From an average attendance of 132.80 in 1919, it increased to 155.16 last year, the numbers on the Roll in the month of December for the two years, respectively, being 142 and 167. The Holy Infancy School for Chinese has an enrolment of 80 scholars. Instruction is given up to Standard VI. The strength of the staff at the date of the official inspection on May 17, 1920, was 4 sisters and 2 temporary teachers. On the recommendation of the Inspector of English Schools, since September last the staff has been increased by one sister. Among other recommendations Mr. R. E. O. Birly (who inspected the school in the absence of Mr. E. Ralphs on home leave) suggests that "some time during the winter months should be devoted to Swedish drill. It could be taken on the verandahs." In this advice we are brought face to face with the difficulty of suitable school accommodation. I may perhaps be permitted to reiterate the remark in a previous report that St. Francis School has to pay a monthly rental to the Government of \$200 for its present premises. The lack of a playground is acutely felt and for the number of scholars, this deficiency cannot be supplied with the extremely meagre resources of the school which does not enjoy the benefit on any public or private endowment or gifts for its maintenance. I venture to put forward, for the second time, an appeal to the authorities that in the scheme of the new Praya East Reclamation a site might be thought of for St. Francis School. It is a pioneer school for girls in the Colony and as such it may lay claim to some consideration.

Every ready to adapt itself to the needs of the district in the matter of female education a special class was started in September of last year for the elder Chinese girls desirous of beginning to learn the English language. There are now 20 girls attending this class. The advantage of this special class is too obvious to need enlarging upon. Suffice it to say that its success is bound to popularise the class for Chinese girls in the Eastern district of the Colony. For the younger Chinese children attending the vernacular section of the school Chinese text books for reading and geography are those approved of by the Education Department. In this way it will be seen that the curriculum of the school conforms strictly to the requirements of the officials of that department. The Lizard Scholarship for 1920-1921 has been awarded to Miss Evelyn Murray.

It remains for me to thank Sir Robert and Lady Ho Tung for kindly consenting to take a leading part in our prize day this year and for their kind donation to our prize fund. We wish also to thank the parents of our scholars as well as our kind friends for their presence at our distribution of prizes, and the donors for their prizes. Lastly, to the Committee of the Catholic Men's Club the sincere thanks of the staff are due for their kindness in giving us the use of the Hall.

In a short address, Archbishop Morrell laid particular stress on the importance of education as a means to cultivate children's minds. He was very glad to notice the great progress made by the School during the past year and congratulated the pupils on the success of their entertainment. In India the British Government gave liberal help to the schools, especially girls' schools, and he hoped the same thing could be done here. If the

Government could allow the Sisters to use the school premises free of charge it would be a great favour. The lack of funds was a great impediment to developing education and for this reason he invited all to come to help the Sisters in their good work.

Lady Ho Tung then distributed the prizes.

In thanking the Mother Superior for inviting his wife to give away the prizes, Sir Robert Ho Tung offered his congratulations to the School on the success of last year's work. He was particularly glad to hear that the School had started a special English class for Chinese girls. One of Lady Ho Tung's regrets was that she had not devoted herself to acquiring such knowledge of English as she did of Chinese, because in her younger days there was no Government school for Chinese girls run on the same lines as those existing to-day. Now that the children had the benefit of good Sisters he would advise them to profit as much as they could by the teachings of the kind ladies. There was a true saying in the First Book of the Chinese that "If you don't learn when you are young you will be useless when you are old." He was very much interested to hear that St. Francis' School was a pioneer school and was equally sorry to hear that it was labouring under the difficulties of insufficient accommodation and the want of a playground. He could only endorse the Mother Superior's appeal in her report that when more land was provided in the eastern district on the completion of the reclamation scheme the authorities would consider the Mother Superior's petition for more suitable premises to house the School. The wisest expenditure of any Government was to help in the education of children who would be the men of to-morrow. In the performance of the noble work of training children the Colony was to be congratulated that it had so many able Sisters who had devoted themselves whole-heartedly to the upbringing and intellectual upbringing of the younger generation. In conclusion, Sir Robert invited those present to join him in expressing their appreciation to the pupils who had given them

B. J. Cross, a seaman of the s.s. "Cutty Sark" was this morning charged before Magistrate Lindell, at the instance of Mr. J. W. C. Nelson, manager of the King Edward Hotel, with disorderly conduct in the public bar of the hotel on the night of January 27. The Magistrate enquired if the defendant had anything to do with the case dealt with last week. Mr. W. C. Nelson said that the defendant was the man Taylor's companion, and managed to get away when the police were sent for. The defendant said that he did not remember anything that happened on the night in question. A fine of \$10 was imposed.

such an entertaining performance (Applause).  
 The proceedings were brought to a conclusion by the singing of the National Anthem.

"I heard a cry of 'stop thief,'  
and afraid of being implicated, I ran,"  
said a Chinese to Magistrate Orme  
this morning in answer to a charge  
of having entered house No. 63,  
Fraya East at 5 a.m., for an unlawful  
purpose. The master of the second  
floor said that he was lying awake  
when he heard a noise outside the  
door. Through a spy hole he saw  
the accused with a bamboo trying to  
fish a silk coat through the mesh  
work above the door. Witness raised  
the alarm and chased the accused  
who ran into the arms of a Chinese  
constable. The Magistrate sentenced  
the accused to one month's hard  
labour.

After being closed for over six  
years, the German Consulate in  
Yokohama has been re-opened.

According to the Chinese Press,  
two notorious criminals are pay-  
ing a visit to Shanghai. A diligent  
search is being organized.

There is much juvenile sickness  
at present in Tientsin, everything in  
the shape of children's complaints  
from chicken-pox to scarlet fever  
being present.

Having been convicted of rob-  
bery in Pootung a thief, bound hand  
and foot, was carried round various  
districts and finally executed at the  
place where the robbery had been  
committed.

The marriage of Ernest Frank  
Clemens, eldest son of Consul and  
Mrs. Clemens, H.B.M. Consulate,  
Chunhsing, to Miss Irene Astle, only  
daughter of Henry Astle, Esq., Car-  
lton Hill London, will take place at  
St. Mark's, Hamilton Terrace, Lon-  
don, N.W., on February 5.

The Military Governor of Shang-  
hai is reported to have received warn-  
ing that a Chinese Bolshevik agent  
has set up his headquarters in Shang-  
hai, with the object of stirring up  
trouble amongst factory workers. The  
directors of factories in Nantao, where  
some 10,000 men are employed, are  
being asked to warn their men against  
listening to "designing and evil  
propaganda."

About 11 o'clock this morning,  
the Fire Brigade received a  
call to attend an outbreak  
on board the ss. "Hal-  
lamong" which was lying alongside the  
Douglas Wharf. The engines turned  
out promptly as usual but on arrival  
at the wharf their services were not  
required, the flames having already  
been extinguished by the ship's crew.  
No damage was done either to the  
ship or cargo, and she sailed for  
Swatow at noon according to  
schedule.

The Meritorious Service Medal  
was presented to Master Gunner  
May, R.G.A., at a parade of the 88th  
Company and Headquarters Staff R.  
G. A. by H.E. Major-General Sir G.  
M. Kippin, K.C.B., K.C.S.I.,  
General Officer Commanding the  
Forces in China. Major C. I. Hick-  
ling, D.S.O., R.G.A., read the record  
of service for which the award  
was made. The G.O.C. then  
pinned the medal on the re-  
cipient's breast, and shook hands  
with him, and congratulated  
him on the award. The official  
record read as follows: "For Val-  
able and Meritorious Service.—1st  
Class Master Gunner George Thomas  
May, R.G.A., performed the duties of  
Armament Staff Officer, China Com-  
mand, and Assistant to the Fire Com-  
mander, Western Defences, Hong-  
kong, November, 1914, until the end  
of the War. These duties are nor-  
mally performed by Officers of ex-  
perience and seniority and were  
carried out by Master Gunner May to  
the satisfaction of his senior Officers."

Among the Kowloon Notes in  
the Rock is the following:—On the  
subject of recreation grounds the  
Government is intent on utilising  
temporarily the vacant lands to the  
north of Salisbury Road. It is about  
time that this waste ground were put  
to better purpose, and the unsightly  
pools of water after each heavy  
shower of rain removed. The  
main difficulty at present is the  
cost of laying out and turning.  
Surely the Colony's treasury is  
not so depleted that it cannot  
afford a few thousand dollars to in-  
terfere the land in question into well-  
cultivated lawns for out-door games and  
children's playground. The sugges-  
tions submitted to the Government  
by the Residents' Association embrace  
(1) tennis courts; (2) garden resort  
with botanical specimens properly  
labelled; (3) the provision of a band-  
stand and shelters has also been  
advocated; (4) cricket pitch and  
field; (5) hockey and baseball. It has  
been suggested that the extreme end  
of this plot of land be allocated as an  
additional children's playground.
